SUMMARY

Qualified Computer Science postgraduate with professional competency in frontend technologies including React and HTML CSS, complemented by a solid understanding of cloud infrastructure and Python-based backend systems. Author of two published titles in technology and digital marketing. Adept at translating complex requirements into functional, scalable web solutions and eager to apply academic and project experience in a professional cloud or frontend engineering role.

EDUCATION

Master Of Computer Application

August 2025 - present

Lead College, Calicut University.

Pursuing

Bachelor Of Computer Application

August 2022 - March 2025

CAS Mavelikkara.

Percentage: 62.9

PROJECTS

Smart Farming E-Commerce Framing Web Site

- Developed a web application enabling direct transactions between farmers and buyers
- Designed distinct interfaces for farmers, buyers, and administrators

Smart Attendance Using Face Recognition

- Built an attendance system using machine learning algorithms
- Achieved reliable and cost-effective attendance tracking

Blood-Bank-API

- Developed a RESTful API to manage donors, blood inventory, and hospital requests
- Implemented secure architecture with role-based access and efficient stock tracking

Ai Image Caption Generator

- Built an image captioning system using CNN-LSTM (InceptionV3 + LSTM)
- Trained on Flickr8k dataset and evaluated using BLEU score

Tic-Tac-Toe AI Web Game

- Developed a web-based Tic-Tac-Toe game with an AI opponent
- Implemented multiple difficulty levels for user engagement

Ludo Board

- Designed a static Ludo board using Python Turtle graphics
- Applied coordinate geometry for graphical layout design

PUBLICATIONS

- **A Comprehensive Guide to Building Startups with Free and Paid Tools, 2025.**
- **Overview of Digital Marketing Channel: SEO, SEM, Social Media, Email, Content, Affiliate, 2025.**

SKILLS

Python	Intermediate
MYSQL	Intermediate
React	Beginner

CERTIFICATIONS

- web development using React.
- Antroid programming using Flutter.
